

TBW – Important Releases and Changes

Dear Valued Client:

Rival Insurance Technology is pleased to announce the release of the following enhancements and new features to TBW:

Sandbox Online Quoting for Habitational Policies (SK)

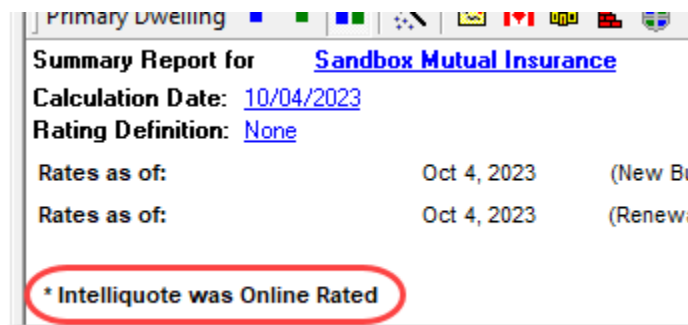

Brokers who write business in Saskatchewan with Sandbox Mutual Insurance can now access the Online Quoting feature directly from TBW and IntelliQuote for new business Personal Lines Property policies. Online quoting is available as of October 4, 2023.

With online quoting, Sandbox rates will always be up to date and available to you realtime, as rates will come directly from their system through a web call. This streamlined quoting process will enhance the customer experience and enable you to do business more efficiently and responsively.

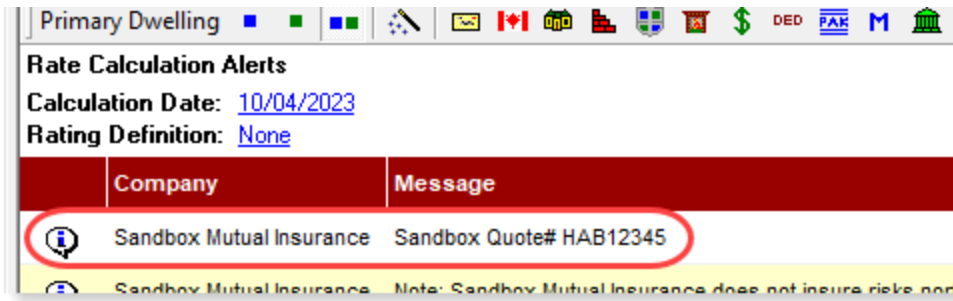

Once the simple, one-time setup ([see below](#)) has been completed, Sandbox’s web service will automatically be called whenever you click the **Recalculate** button in a Property IQ with a Calculation Date on or after October 4.

The results of the web service call will display immediately on the Summary Report tab. Use of online rating will be indicated in the IQ.

Any alerts that have been returned from the web service will show on the Alerts tab. For an online-rated quote, you will also receive a message on the Alerts tab providing the quote reference number ("Sandbox Quote# HABxxx").

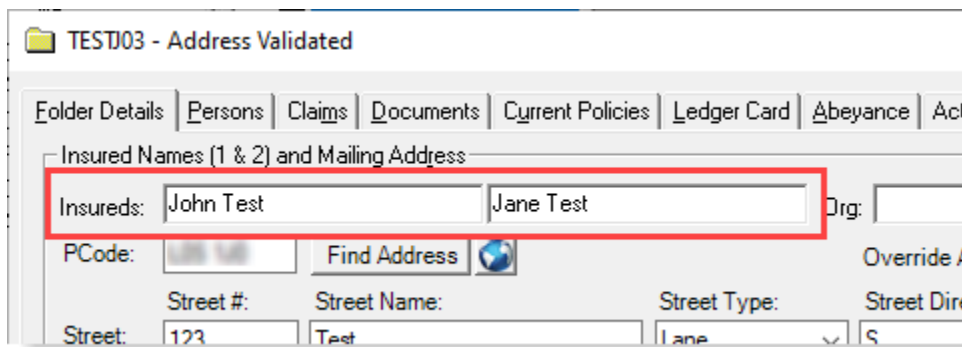

Here are a few points to keep in mind with Sandbox Online Quoting:

- Online quoting is available as of October 4, 2023. Quotes with a calculation date prior to October 4 will be rated as manufactured rating.
- Online quoting is available for new business policies but is not currently supported for renewal quoting.
- Online quoting is available for Primary Homeowners, Additional Residence House, Primary Condo, Additional Residence Condo, Add-On Rented Condo, Primary Tenant, Additional Residence Tenant, FEC, Add-On Rented Dwelling, Standalone Seasonal Dwelling, and Add-On Seasonal Dwelling policy types.
- Farm and Mobile Home policies will be rated as manufactured rating.
 - Please note that rating is not supported for a Farm or Mobile Home policy with an online-rated secondary dwelling.

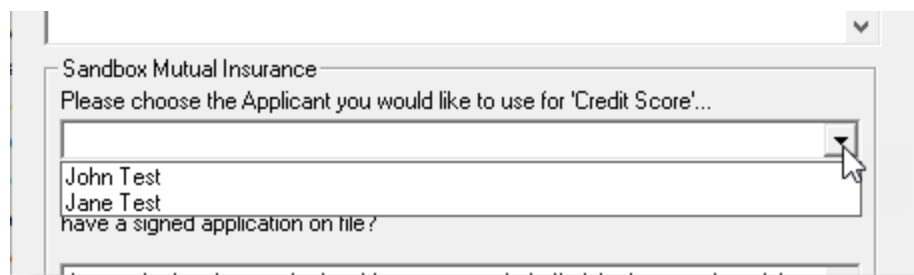

Credit Score Consent with Sandbox Online Quoting

Credit score consent can be submitted in the usual way. However, please note that Sandbox’s direct rating service has a requirement in regard to credit score: **Credit score consent can only be submitted for the primary named insured** (the person in the first Insureds field in Folder Details).

If there are two named insureds on the quote and you would like to use the secondary named insured for credit score, **please switch the names in Folder Details** (making the second named insured the first named insured).

After recalculating the IntelliQuote, complete the Credit Score form, ensuring the applicable Applicant is selected. Click the Submit button to send the information to the company.

When credit score consent has been submitted, no client credit information will display in the Summary Report. However, when applicable, the Credit Score Discount will be listed under Miscellaneous Discounts/Surcharges.
