Intact UBI Enhancements Roll Out to Brokers in Nova Scotia

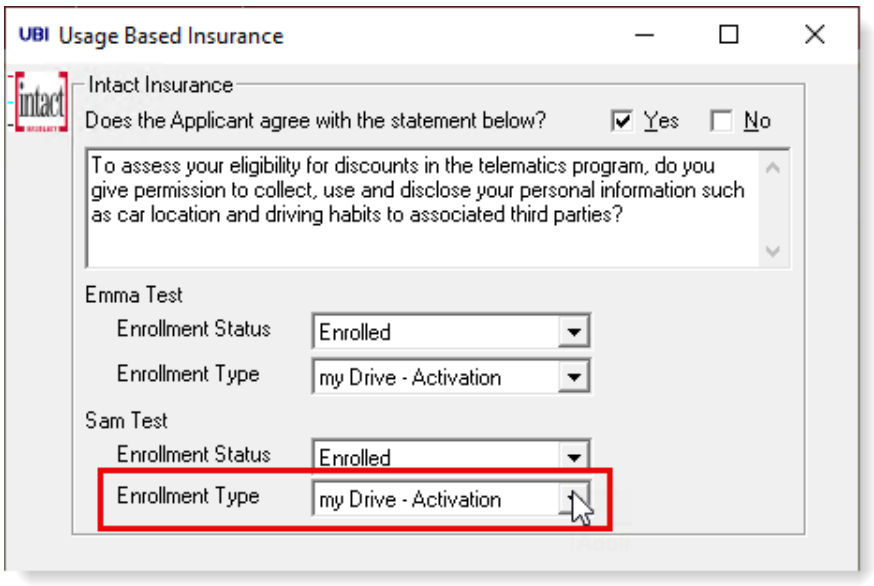
As you know, brokers using TBW and TBW Flex can submit Usage Based Insurance (UBI) consent in an Auto IntelliQuote, helping clients take advantage of eligible discounts.

The **Intact UBI feature** has been upgraded in TBW, and you'll notice some changes, including updates to the UBI form, a refreshed Discount name, and a new informational Alert.

Note that these enhancements do not affect functionality, and you can continue to set up and use the Intact UBI feature as before.

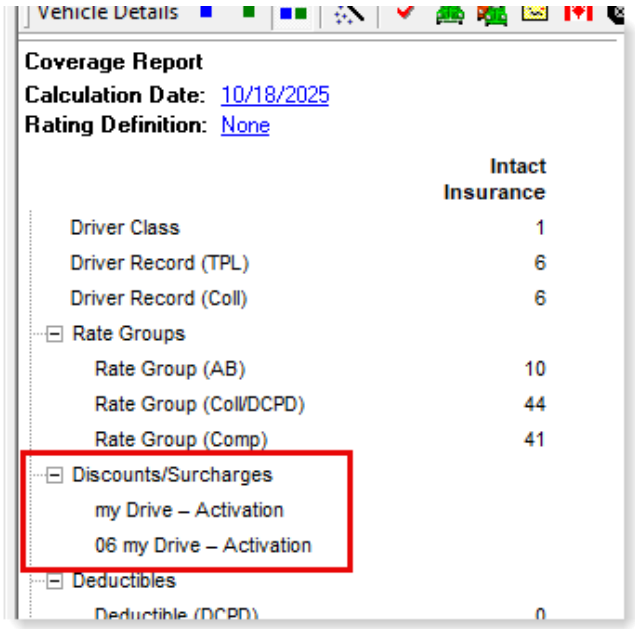
When adding or editing Driver details, click the UBI button on the IQ toolbar to open the Usage Based Insurance form. Complete the UBI form in the usual way, providing Enrollment Status and Enrollment Type details for each driver on the IQ.

- In the Enrollment Type field, the *New* and *Renewal* options available previously have been replaced with "**my Drive – Activation**".

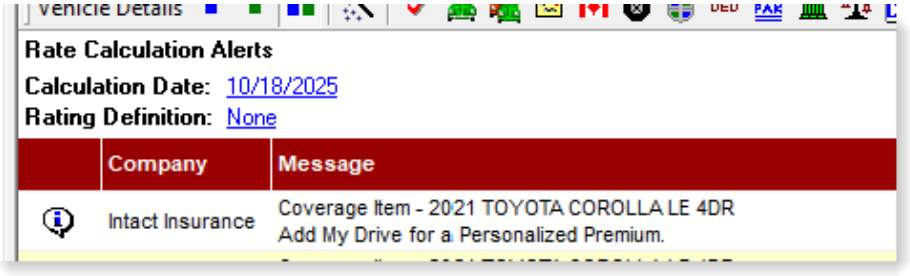


- If the *No* checkbox is selected, the Enrollment Status and Enrollment Type fields will automatically be disabled.

Based on the rules and details provided, any applicable discount will be applied to the premium. The discount will now show as "**my Drive – Activation**" in the IQ Coverage and Summary Reports and in Outline View.



When the Driver has not consented or is not enrolled in the UBI program, an Informational Alert will display, reminding you to "*Add My Drive for a Personalized Premium.*"



These Intact UBI enhancements apply to Intact Auto IQs (PPV only) in Nova Scotia, effective October 18, 2025.

Please share this information with the appropriate TBW users in your office(s). If you have any questions, please reach out to our Client Services Team by Chat (https://supportdesk.rivalit.com/) or Email (support@rivalit.com).

Thank you for using TBW.

Yours sincerely,

Rival Insurance Technology
