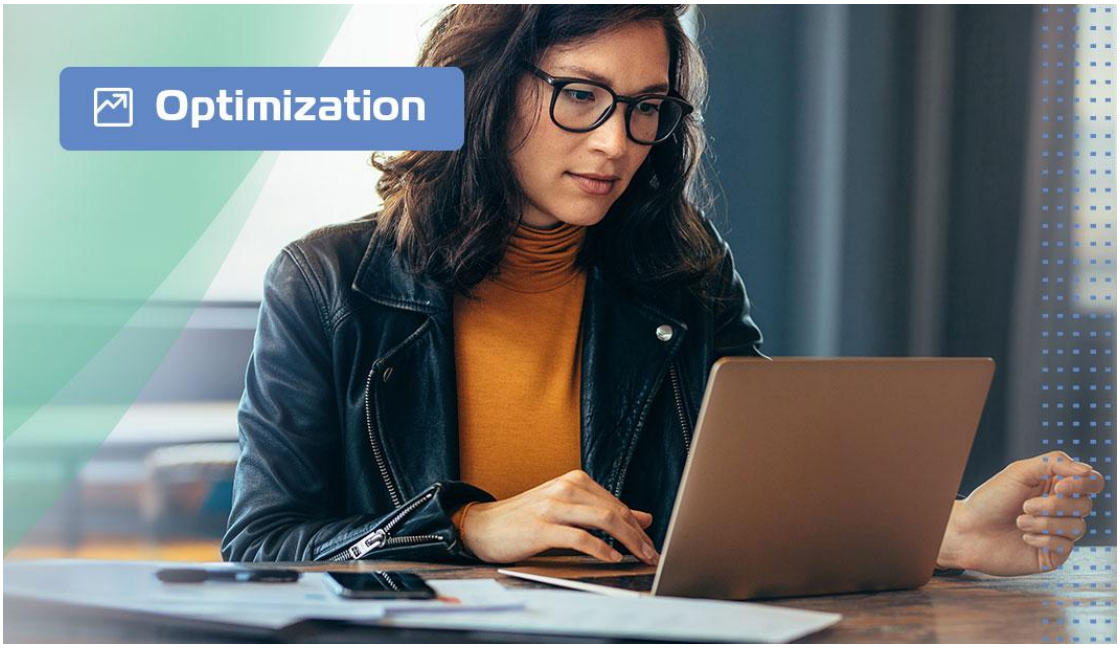
Optimized New Business Upload Now Available for Intact Brokers



Focused on making things faster and smoother for you and your clients, New Business Upload has been upgraded to CSIO version 1.46 for Intact Habitational policies in Ontario.

This improvement applies to Intact's Property policies in Ontario across all dwelling types, including FEC and Seasonal policies. Any new business Property policy uploaded on or after December 11 (regardless of the effective date of the quote) will use the upgraded version of CSIO.

Note that **user workflows and credentials have not changed**. Please continue to upload new business Property policies for Intact using the usual process.

For TBW Flex users, this feature enhancement is automatically applied—no action needed! On-premise TBW users, please run the TBW Update Utility to receive this update.

If you have any questions, please reach out to our Client Services Team by Email (support@rivalit.com) or Chat (https://supportdesk.rivalit.com/).

Yours sincerely,

Rival Insurance Technology
